CAPABILITIES STATEMENT

CORE COMPETENCIES

- Design-Bid-Build
- Design-Build Construction
- New Construction
- Renovations
- Construction Management
- Multidisciplinary Self-Performance

DIFFERENTIATORS

- SBA 8(a) Certified Small Business
- ABC Accredited Quality Contractor
- Service-Disabled Veteran Owned
- Minority-Owned Business
- DBE Certified
- Best-Value Contracting
- .91 EMR rating and low fall-risk
- Substantial bonding capacity
- Excellent CPARS through past performance
- Emergency Response within 24 hours

OUR STORY

MIG GOV, LLC is an SBA Certified 8(a), ABC Accredited Quality Contractor (AQC), Service-Disabled Veteran Owned Small Business General Contractor specializing in turn-key project management services of design and construction that reach beyond industry standards. Our vast experience in budgeting, design, planning, engineering, and building allows MIG GOV to be a best-value industry leader for both Commercial and Government contracting. Our business model is based on client centric quality assurance which makes our client's needs our number one priority. Additionally, MIG GOV possesses significant bonding capacity for low-risk contracting, which allows us to perform diverse construction projects ranging from Design-Build and Design-Bid-Build New Facility Construction and Historical Building Renovations, to Infrastructure Improvements and Waterfront/Pier projects of all types and beyond. Our team guarantees a commitment to high quality performance, integrity, and customer satisfaction. Finally, our 75+ years of combined construction experience and diverse, talented staff bring a unique array of knowledge and creativity to proactively mitigate risk and efficiently execute any envisioned project for a successful experience.

AGENCY PARTNERS

MIG GOV has past performance relationships with Commercial, State, and Government agencies including:

COMPLETED PROJECTS

V88 CNAL Maintenance Operations Center Renovation, Naval Station Norfolk, VA

Contract: N4008521C0033 | Value: \$3,874,529 | NAVFAC

This sole sourced 8(a) procured project was selected for Early Contractor Involvement (ECI) at Naval Station Norfolk, the world's largest Naval base. This project was a phased full renovation of an 8,400 SF interior facility to include complete demolition of existing office spaces including all walls, finishes, mechanical, and electrical systems to serve as the new AIRLANT Maintenance Operations Center (MOC).

Combat Integration & Identification Systems (CI&IDS) Lab Revitalization Program (LRP) Patuxent River, MD

Contract: N0042120B00030006 | Value \$6,000,000 | US Navy – NAVAIR
 New Construction of a 15,000 SF facility to protect mission critical assets.

Decommission of Electric Lines, Richmond, VA

Contract: W9123620C2030 | Value \$2,218,068 | USACE

Overhead to underground and reworking medium voltage electrical lines throughout the base.

Roof Canopy Range 39, Fort AP Hill, VA

Contract: W9123620C2029 | Value \$805,485 | USACE

Design-Build New Construction of a 7,100 SF PEMB compliant with Blast Load Considerations UFC3-340-02. Additionally, the facility required new electrical service, foundation and site concrete, and incidental systems to support training operations at Fort AP Hill.

USS Wisconsin Berthing Area Dredging, Norfolk, VA

Contract: 29211 | Value \$1,214,996.00 | City of Norfolk

Manned suction dredging under the berth of the historic USS Wisconsin Battleship. The Team used 8" inch suction hoses and divers to dredge a total of 8000CY of material for a final depth of -3'

COMPANY HISTORY

MIG GOV was founded by Jose Gutierrez in 2012 after a 15-year Naval career serving with the elite counter-terrorism and special forces. Unfortunately, his career was cut short due to injuries sustained on the battlefield in Afghanistan. After being medically retired from the Navy, Mr. Guterrez returned to his construction roots and established MIG GOV and is proud to say that his service to our great country continues today, one successful project at a time.
