

MIGGOV

SERVICE ORIENTED MISSION DRIVEN

In 2012, Jose Gutierrez founded MIG GOV after a 15-year Naval career serving with elite counterterrorism and Special Forces units. His military career was cut short due to injuries sustained on the battlefield in Afghanistan, which led to his medical retirement. After being medically retired, Jose used his experience to serve the government by launching two divisions within MIG GOV—construction and tactical. Through these efforts, he continues his service to our country, one successful project at a time.

MARKET CAPABILITIES

- Maintenance Repair & Operations
